

EPOXY INNOVATION AND MANUFACTURING EXCELLENCE

TOLL & PRIVATE LABEL MANUFACTURE

Scaling epoxy solutions from concept to global supply

At Gurit, we specialise in the formulation and toll manufacture of epoxy-based systems with a proven heritage of technical excellence reaching back over 40 years. From our state-of-the-art 5000 m² site on the Isle of Wight, we deliver industrial-scale solutions for customers who need to scale up, refine, or commercialise their chemical products.

WHY WORK WITH GURIT?

- Global compliance: ISO-certified, DNV-accredited.
- Scalable capacity: 6,000+ tonnes/year for filled systems.
- Flexible batch sizes: 80L to 1,500L
- Viscosity versatility: From low-viscosity liquids to high-density pastes.
- Extensive chemical & mechanical testing facilities.
- In-house regulatory compliance expertise.
- SDS & label creation in multiple languages.

www.gurit-resins.com

Our site has a dedicated team of technical specialists with R&D, formulation, development, and application capability for a wide range of thermoset products, which are used across various applications and markets. We offer toll and private-label production, as well as bespoke formulation and product improvement or scaling.

RELIABLE TOLL MANUFACTURING

We have the capacity to provide a full private label or tolling service to multiple customers simultaneously and at significant scale, delivering high quality products to customer specifications, with reliable repeatability.

- Initial design consultation
- Prototype development
- Process engineering
- Sample supply
- SCADA-controlled production with full ERP traceability.
- Packaging & label design to UN standards

FULL-CYCLE PRODUCT DEVELOPMENT

Whether you're looking to improve existing products or develop fully bespoke new products to meet specific requirements, our team of chemists, engineers, and compliance experts work with you at all stages of the process to ensure your product is robust, compliant, and ready for market. We operate an extensive DNV-certified mechanical testing and quality control facility within our production site so are able to quickly move from lab to pilot to industrial scale. Our extensive supply-chain experience allows us to source raw materials and distribute globally.

APPROVED PACKAGING OPTIONS

Gurit sources, fills, packs and labels a full range of UN approved containers, from 1000L bulk IBCs, drums and jerrycans down to 125ml bottles and cartridges. We can also fill custom packaging on request, as well as design and produce compliant product hazard labels, or work with a customer's own artwork.

- Tankers
- 640-1000ltr IBC
- 200ltr Drums
- 20ltr Straight sized pails
- 3-30ltr Tapered pails
- 5-30ltr Jerry cans
- 0.5-1.0ltr Bottles
- 380ml-900ml Two-component and mono component cartridges.

PRODUCT STEWARDSHIP

We ensure chemical products are fully compliant to export and comply with global legislation. Gurit's team of chemical regulatory compliance and dangerous goods shipping specialists can either work alongside your own regulatory scientists or offer a range of fully managed services including:

- SDS & label creation in multiple languages
- Regulatory compliance support (REACH, SDS, GHS, etc.)
- Bespoke reformulation for hazard reduction.

GLOBAL REACH. LOCAL SUPPORT.

With a 190-year legacy in performance materials and over 40 years of formulation expertise, Gurit is a trusted partner globally in advanced composites and epoxy solutions.

Whether you're lacking in-house capacity or seeking a trusted scale-up partner, Gurit offers unmatched reliability, responsiveness, and regulatory expertise.

Flexible. Scalable. Compliant.
Let's build better epoxies, together.
